# ABOUT US

## QUALITY SIGNATURE®

We have taken our place in the industry as a manufacturer of innovative plastic home appliances that combine comfort and aesthetics in your homes. We established QS Plastik by turning a new page with the experience and expertise gained over many years in the plastic products industry. This experience is reflected in the quality, durability and aesthetics of each of our products.

### Our Mission:

Our mission is to provide user-friendly, environmentally friendly and aesthetic solutions in the field of home appliances. We aim to design and produce products that will add value to your homes, always keeping customer satisfaction at the forefront.

### Our Vision:

Our vision is to be an innovative and leading brand in the plastic household goods market. By combining technology and design, we aim to offer practical and modern solutions that suit the needs of every home. In line with our sustainability principle, we work to leave a more livable world to the future by using environmentally friendly materials.

### Why QS Plastik?

**Expertise:** Our company owners' many years of experience in the industry enable us to offer quality and reliable products.

**Innovation:** We aim to make your home life more comfortable by constantly developing innovative solutions.

**Customer Focus:** We take your feedback into consideration in all our processes to keep customer satisfaction at the highest level.

**Environmental Awareness:** We work for a sustainable world by using environmentally friendly materials and methods in our production processes.

DOUGH

BASIN

## Dough Basin

It is often used in various culinary processes such as kneading dough, washing vegetables and fruits. Bowls made of durable plastic provide great convenience to their users thanks to their lightness and portability. These practical containers, which find a place in every kitchen with their different size and color options, are an important helper that makes household chores easier with their functionality and long-lasting use.
